

## about us

### ABOUT US

From day one we decided that the property we sell must represent excellent value for the area in which we operate. This has meant building a superb team of property experts, who can not only offer an unrivalled local knowledge, but a wealth of good value properties in Altinkum .

We have slowly grown and expanded our range of services and now we can even offer our clients the opportunity to create their own unique and individual villas with our custom build service

We are not a high pressure sales company and we enjoy working closely with all our clients to help them find their perfect property. All of us here at [altinkumpropertyforsale.co.uk](http://altinkumpropertyforsale.co.uk) is highly motivated to help you understand the market in which you are investing and not simply sell you a house in Altinkum, Akbuk or Didim.

Please register with us today using the box top right and we can start to work together to find your dream home in the sun.
